Digital Screen Artwork Guide

Prepare your images, animations and videos for clear, full-screen display.

1920 × 1080 pixels

FULL HD | LANDSCAPE | 16:9 ASPECT RATIO

Use the same canvas size for every format

Content type	Artwork size	Recommended delivery
Still images	1920 × 1080 px	JPG or PNG
Animations	1920 × 1080 px	MP4 video (H.264)
Videos	1920 × 1080 px	MP4 video (H.264)

Prepare artwork that is easy to read

· **Fill the landscape canvas.** Avoid portrait or square layouts, black bars and stretched images.

· **Keep it simple.** Use large text, strong contrast and one clear message.

· **Leave space at the edges.** Keep logos, contact details and essential text comfortably inside the frame.

· **Export the finished file.** Send the full-resolution artwork, rather than a screenshot or compressed preview.
