Your package includes

Screen time	30 seconds in every advertising rotation
Booking duration	One month or longer
Monthly rate	EC$3,000 per month
Category exclusivity	Your business is the only business in its category advertised on the booked screen during your confirmed campaign period.

How category exclusivity works

For your booked period, no other business in your agreed category will be advertised on the same screen. Other business categories may continue to advertise in the rotation.

Your business category, selected screen and campaign dates will be agreed and confirmed in writing before booking. Exclusivity applies to that screen and confirmed period.
